What is an Oil Terminal Facility?

An oil terminal facility, as defined in North Carolina Oil Pollution and Hazardous Substances Control Act (NCGS 143-215.77(11)) means any facility of any kind and related appurtenances located in, on or under the surface of any land, or water, including submerged lands, which is used or capable of being used for the purpose of transferring, transporting, storing, processing, or refining oil

- A vessel shall be considered an oil terminal facility only in the event that it is utilized to transfer oil from another vessel to an oil terminal facility; or to transfer oil between one oil terminal facility and another oil terminal facility; or is used to store oil.
- This definition shall not include any of the following:
 - Any facility having a storage capacity of less than 500 barrels (21,000 gallons).
 - Any retail gasoline dispensing operation serving the motoring public.

I. OIL TERMINAL FACILITY OWNER

II. OIL TERMINAL FACILITY
